ENGLISH CHRYSANTHEMUMS

Stock Plants

Stock plants are very limited this fall as our planting was much smaller than usual last spring. Mostly we planted what we thought we would need for our own stock plants for fall. If there is anything especially that you want in stock plants of the varieties we listed last spring, write about it and we might be able to spare a very limited amount. Next spring we plan on having rooted cuttings of a larger number of varieties.

However, we do have stock plants of the following to ship any time after October 1st.

Prices are listed per each 10 plants at 10 times each rate. Not over 10 plants of a kind to a customer.
